Mr. Groening

Thank you for contacting the U.S. Environmental Protection Agency (EPA). Your requests for certification for the above-referenced models have been approved. See attachments.

According to §60.533(b)(12), please place copies of the certification test reports on your website. The test reports shall be available to the public within 30 days after the EPA has issued a certificate of compliance.

Once EPA has verified that the full non-CBI certification test reports have been posted on the manufacturer's website, the Agency will add the above-referenced models to the EPA-Certified Wood Heater Database. If you have any questions, please let me know.

WoodHeaterReports on behalf of:

Rafael Sanchez, Ph.D.
